

With some 24 million people in Yemen in urgent need of humanitarian assistance and protection, Yemen faces the worst humanitarian crisis in the world. For almost four years, OCHA-managed pooled funds have helped partners to coordinate and deliver the most critical assistance for millions of Yemenis facing conflict, deepening food insecurity and an economy on the verge of collapse.

Over the past year alone, over US\$353.7 million in closely coordinated grants from the Central Emergency Response Fund (CERF) and the Yemen Humanitarian Fund (YHF) helped the humanitarian community act quickly, maintain critical operations and ensure delivery of life-saving aid for millions of people.

With a more anticipatory approach based on forecasts and improved early warning, funding allocations have focused on ensuring early humanitarian action and delivery of a stronger collective response. For example, strategic allocations from the YHF helped partners to quickly scale up food support as soon as warning signs pointed to deepening food insecurity and CERF strengthened the overall response with key allocations for improved logistics, access, security, telecommunications and safe transportation of critical goods and humanitarian staff.

CONTRIBUTIONS IN 2018 in US\$ million

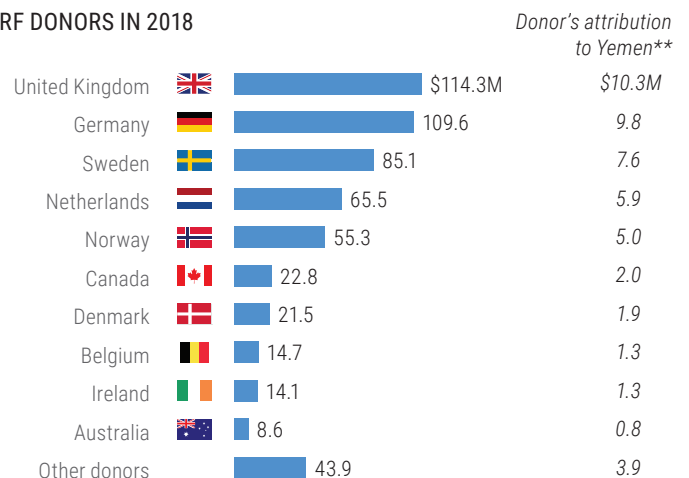

Country-Based Pooled Funds, such as the YHF, are funded by voluntary contributions from Governments and private donors. In 2018, donors contributed a record \$209 million to the fund (compared to \$176 million in 2017 and \$107 million in 2016), making it the largest CBPF in the world.

In 2018, CERF received a record \$555.3 million in unearmarked contributions from UN member states and observers, regional authorities and private donors. Of the \$500.5 million that was allocated from CERF in that year, \$49.9 million, or some 10 per cent, went to Yemen.
