IDA Engagement in Yemen's Active Conflict. The Bank's current engagement in Yemen provides critical support to Yemeni families and communities across the country. It helps the people cope with the impact of the crisis through income support, large-scale cash assistance, health and nutrition interventions, cholera response, and restoration of agriculture production. Emergency grants to Yemen are financed by IDA. **Since July 2016, IDA grants have reached US\$1.36bn** financing emergency operations for the benefit of the Yemeni people. IDA is scaling up funding for Yemen by **another \$400 million** (for Board approval) to finance the Emergency and Crisis Response and Emergency Health and Nutrition projects. By end of the current fiscal year, **IDA's commitments for the benefit of the Yemeni people will amount to \$1.76 billion**. A new Country Engagement Note (FY2020-2021) is also underway that aims at maintaining IDA's commitment to basic service delivery for vulnerable populations and support for livelihoods, food security, and basic economic recovery.

Current IDA Emergency Portfolio Through the UN Comprises 5 Active Operations
Totaling \$1.36 Billion. Total Disbursement has reached \$1.06 Billion (73.03%).

Leveraging Partnership for Implementation in Conflict. The Bank has forged an extraordinary operational partnership with key UN agencies and local service delivery institutions for the implementation of our program. By leveraging these local and international partnerships, we aim to preserve the implementation capacity of Yemeni institutions now and for the country's future and sustain their ability to deliver basic services that millions of Yemenis rely on.
